## Education

### Visvesvaraya Technological University

Bachelor of Technology in Computer Science and Engineering

Jan 2020 – May 2024

Bengaluru, Karnataka

## Experience

• Agonius | Frontend Developer Trainee

Nov 2024-Present

• Deerwalk Training Center | Mern Stack Developer Trainee

July 2024-Oct 2024

## Projects

### Hide-Em | Python, Fernet, HashLib, PIL

May 2024

- Built a program that can hide text into an Image using R-channel LSB.
- Utilizing Cryptography, PIL and Bash64 Libraries

### Netflix-Clone | ReactJs, Firebase, Redux Toolkit, Axios

June 2024

- Built a Netflix Clone using ReactJS, CSS for styling.
- Used Firebase for account creation and user-authentication.
- Utilized tmdb for API and axios for handling API.

### Login Management System | ExpressJs, Joi, Nodemailer, MongoDB, Bcrypt, Jwt

August 2024

- Used Joi validation for data validation, Nodemailer to send mail with token embedded in link,
- Utilized MongoDB as database, Bcrypt to encrypt credentials before storing in database
- Used jwt to generate tokens for expiry-link, ,
- Developed RestAPIs, with a complete login system having login, register, forget and resetpassword.

### CRUD App Using RTK | ReactJs, Formik, Redux Toolkit, Yap, React-dom-Router, React-Toastify

September 2024

- Used ReactJs with CSS for Frontend UI development,
- Used Formik to create reusable form components and yup for validation,
- Utilized React-dom-router to make navigation and handling dynamic routing,
- Implemented **React-Toastify** for user-friendly notifications and alerts,
- Integrated **Redux Toolkit** for efficient state management, organizing slices to manage application state and handling APIs.

### Evogym | ReactJs, Tailwind Css, TypeScript

November 2024

- Built a responsive gym app frontend overview using typescript,
- Used FramerMotion, react-anchor-link for smooth scrolling experience,

### Agonius | ReactJs, Tailwind Css, TypeScript

November 2024

- Built a responsive file handling system with grid and list view tabs,
- Used ShadCN Ui components,

## Technical Skills

**Languages:** C++, HTML, CSS, JavaScript, Python, TypeScript

**Developer Tools:** Visual Studio Code

**Technologies:** GitHub, MongoDB, MySQL, Postman

**Libraries/Frameworks:** React.js, Node.js, Express.js

**Extra Skills:** Premier Pro, Photoshop, After effects

## Training Recieved

- Next Wave | AI for Students: Build your Own Generative AI Model
- Geeks for Geeks | Web Designing & Development

Feb 2024

Nov 2021
